OBJECTIVE

Sophomore student in Mechanical Engineering seeking internship and co-op opportunities in power generation, heat exchangers, and rotating equipment

EDUCATION

Texas A&M University, College Station, Texas

Bachelor of Science in Mechanical Engineering

May 2029

Cumulative GPA: 3.79/4.0

COURSEWORK: Statics, Geometric Design, Principles of Electrical Engineering, Thermodynamics, Materials and Manufacturing, Differential Equations, Statistics, Mechanical Measurements, Python

RELEVANT EXPERIENCE

NASA Micro G NeXT

September 2026 - Present

- Collaborated with multidisciplinary engineering students to propose a design for Cable Management Device to help astronauts deploy and retrieve power transfer cable while preventing regolith and dust intrusion
- Hand sketched preliminary ideas and did simple mechanism analysis using SolidWorks
- Currently working on creating final model in SolidWorks, and doing FEA analysis

ASME Go Kart Team

September 2025 – May 2026

- Collaborated with team to design go-kart to finish curvy course with top speed of 30 mph
- Hand sketched standard 3-view and isometric go kart frame, and modeled steering wheel and shaft in SolidWorks to do FEA
- Fabricated kart by welding and using power tools, increased brake efficiency by 10% by aligning caliper with rotor and increasing rotor size

Tennis Ball Machine Project

June 2025 - August 2025

- Hand sketched tennis ball machine using salvaged garage materials
- Assembled using salvaged plywood and brackets, aligning feeding chute with wheels for reliable firing
- Soldered motor wires and built parallel circuit with a manual switch
- Fixed insufficient motor rpm by switching to leaf blower battery

Orchid Brother, LLC

April 2024 – August 2025

- Repaired houses by fixing drywall, maintaining plumbing system, and landscaping

ADDITIONAL EXPERIENCE

Hashim Learning Center, Katy, Texas

June 2024 – October 2024

- Taught Algebra 2, Geometry, and Chemistry to high school students
- Catalogued worksheets, practice test, and syllabi for incoming students
- Organized office and stocked materials for printing

SKILLS

Python, SolidWorks, 3D Part Modeling, Technical Drawings, Excel, Word, PowerPoint, FEA

AWARDS

- SolidWorks CSWA Certification, August 2026
- Tennis Academic All State Award, April 2025
- Scholastic Gold Key Short Story Award, October 2023
- Python IT Specialist Certificate, April 2022

ORGANIZATIONS

American Society of Mechanical Engineers

September 2025 – Present

American Nuclear Society

September 2025 – Present
